

CALAS® Cryptococcal Antigen Latex Agglutination System

The photographs below are representative of actual reactions you will see in running specimens with Meridian's CALAS® Kit, and are intended to aid in standardizing your latex grading system. For descriptive information as well as full instructions on performing the actual procedure, please refer to the Package Insert accompanying the kit.

For further information or technical support, please contact Meridian Bioscience at 1.800.543.1980
