

curian[®]

Your trusted partner for improved operational efficiencies and standardization

Curian[®] provides an efficient, focused, and objective diagnostic platform for healthcare systems looking to standardize testing, improve patient outcomes, and increase clinician satisfaction rates.

meridian BIOSCIENCE[®]
LIFE DISCOVERED. LIFE DIAGNOSED.

Your trusted partner for improved operational efficiencies and standardization

Simple, standardized sample prep and workflow

- Aioprep (all-in-one sample prep)
 - Comfortable, clean handling of samples
 - Standard for each assay
 - Intuitive design
- Standardized assay to assay workflow
 - Simple 3-step workflow
 - Easy, consistent implementation and training
- User interface
 - Dual Mode: **Analyze Now** or **Incubate and Analyze**
 - Easy to navigate
 - LIS connectivity

Focused menu

- Fluorescent technology
 - Removes subjectivity
 - Enhances performance
- Gastrointestinal (GI) focus
 - Pipeline of GI assays
 - Helps labs efficiently meet today's demand for GI testing

Trusted partner

- Solutions delivered under Meridian's robust quality system
- Best-in-class technical support and customer service
- Proud recipient of 2017 Red Dot Award for best of the best

Sample to Result in 3 Steps

1 Discharge sample

2 Add sample to card

3 Place card into instrument and start

The Curian® Platform Advantage

The total solution

- Curian® can be used in conjunction with other Meridian platforms for a total testing solution across the healthcare system that offers:
 - Flexibility in testing options that allows for near-patient testing or centralized testing in a core lab
 - The ability for health system administrators to be responsive to changes in testing requirements, protocols, and demand fluctuations within the health network
 - An unparalleled GI portfolio that accommodates any laboratory setting from low to high volume

How Meridian can help you

- You and your patients are central to everything we do — from research to new products in our robust pipeline
- We work everyday to deliver expertise and innovation in gastrointestinal and respiratory disease testing and supporting the wellbeing of children to improve health outcomes and build a healthier community
