

CERTIFICATE OF ANALYSIS

Important Note: Centrifuge before opening to ensure complete recovery of vial contents.

Catalog #: N55195M **Lot #:** 1126815

Description: MAb to Factor VIII
Monoclonal Antibody to Human Factor VIII

Specificity: Recognizes an epitope in the N-terminal region of the 83 kDa light chain of human Factor VIII. Does not cross-react with von Willebrand factor. Can inhibit Factor VIII activity in coagulation assays.

Clone: 104

Host Animal: Mouse **Isotype:** IgG_{2a}

Source: Ascites

Immunogen: Purified Human Factor VIII

Format: Ascites, Liquid

Purification: Not Applicable

Concentration: Not Determined

Buffer: Not Applicable

Preservative: 0.1% Sodium Azide

Applications: May be used in ELISA to detect and quantitate human Factor VIII. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.

Storage: Upon receipt, aliquot and store (up to 1 year) at -20°C to -70°C. Avoid multiple freeze/thaw cycles.

Warning: This product contains sodium azide, which has been classified as Xn (Harmful), in European Directive 67/548/EEC in the concentration range of 0.1 - 1.0 %. When disposing of this reagent through lead or copper plumbing, flush with copious volumes of water to prevent azide build-up in drains.
