

# dUTP, 100mM

## Product Handling Guide

Shipping:	On Dry or Blue Ice
Catalog number:	MDX059
Batch No.:	See vial
Concentration:	100 mM

Store at -20 °C

### Storage and stability:

dUTP, 100mM is shipped on dry or blue ice. On arrival store at -20 °C for optimum stability. Repeated freeze/thaw cycles should be avoided. Thawing during transportation does not affect the product performance. For long-term storage, aliquoting is recommended.

### Expiry:

When stored under the recommended conditions and handled correctly, full activity of the kit is retained until the expiry date on the outer box label.

### Safety precautions:

Read and understand the SDS (Safety Data Sheets) before handling the reagents. Hardcopies of the SDS will be provided with the first shipment, thereafter they will be available upon request.

### Quality control:

Bioline operates under ISO 13485 Quality Management System. dUTP, 100mM and its components are extensively tested for activity, processivity, efficiency, heat activation, sensitivity, absence of nuclease contamination and absence of nucleic acid contamination.

### Notes:

This reagent has been manufactured under 13485 Quality Management System and is suitable for further manufacturing use as an IVD component.

## Description

Sequencing grade ultra-pure dNTPs are enzymatically synthesized from premium quality raw materials, using highly specific production systems in our purpose built facilities. The manufacturing process eliminates impurities and PCR-specific inhibitors such as modified nucleotides, tetraphosphates and pyrophosphates commonly observed in other commercially available dNTP products (>99% purity determined by quantitative HPLC).

All dNTPs are supplied as lithium salts in purified water at pH 7.5. Lithium salts have greater resistance to repeated freezing and thawing cycles than sodium salts, and lithium salt dNTP preparations remain sterile over the entire shelf-life due to the bacteriostatic activity of lithium towards various microorganisms.

Component
dUTP

## dUTP Characteristics

2'-deoxyuridine-5'-triphosphate solution

SPECTRAL & HPLC ANALYSIS	PERFORMANCE
$\lambda$ max pH 7.0	262 nm
$\epsilon$ at $\lambda$ max	10.0 E x mmol <sup>-1</sup> x cm <sup>-1</sup>
A <sub>250</sub> /A <sub>260</sub>	0.75 ± 0.03
A <sub>280</sub> /A <sub>260</sub>	0.38 ± 0.02
Concentration	100mM ± 5%
Appearance	Clear Colorless Solution
pH of Solution	7.5
dNTP (HPLC Area)	≥ 99%
dNDP (HPLC Area)	< 1%
DNases, RNases, Nicking Activity	Negative
