### Safety Data Sheet

**MDX034** 

1-Step qPCR Buffer 4x

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product form: Mixture

Product name: 1-Step qPCR Buffer 4x

CAS No.: N/A EC No.: N/A

REACH No.: A registration number is not available for this substance as the

substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is

envisaged for a later registration deadline.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Product for analytical use

Uses advised against: Not described

1.3 Details of the supplier of the safety data sheet

Bioline Reagents Ltd, part of Meridian Bioscience

Humber Road Phone: +44 (0)20 8830 5300 London Fax: +44 (0)20 8452 2822

NW2 6EW E-mail: <a href="mbi.tech@meridianlifescience.com">mbi.tech@meridianlifescience.com</a>

United Kingdom

1.4 Emergency telephone number

Emergency number: +44 (0)1865 407 333 – English speaking (24 hours, 7 days)

Contact: CareChem 24

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

1-Step qPCR Buffer 4x

Classification according to Regulation (EC) No 1272/2008

Not a hazardous substance or mixture

### 2.2 Label elements

1-Step qPCR Buffer 4x

Labelling according Regulation (EC) No 1272/2008

Not a hazardous substance or mixture

| Hazard Statements (CLP) | Precautionary Statements (CLP) |
|-------------------------|--------------------------------|
| None                    | None                           |

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

#### 2.3 Other hazards

#### Possible hazards from physicochemical properties:

Some hazards associated with individual components of this mixture are not relevant because the substances are present in concentrations below the GHS cut-off levels, change of physical state or because the mixture/ solution is buffered to pH 4-9 (see GHS Directive 1272/2008/EC Annex I, chapter 3.2.3.1.2.).

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### **SECTION 3: Composition/information on ingredients**

### 3.1/3.2 Substance or Mixture

#### 1-Step qPCR Buffer 4x

| Name, synonyms and | Product Identifier | Composition | Classification according to |
|--------------------|--------------------|-------------|-----------------------------|
| formulae           |                    |             | Regulation (EC) No.         |
|                    |                    |             | 1272/2008 (CLP)             |
| N/A                | N/A                | N/A         | N/A                         |

This mixture does not contain any substances to be mentioned according to the criteria of section 3.2 of REACH annex II

### 3.3 Remarks

List of H, EUR and P phrases: see section 16

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| First-aid measures general            | If necessary consult a physician. Show this safety data sheet to the medical   |
|---------------------------------------|--|
|                                       | professional in attendance.  |
| First-aid measures after inhalation   | Remove to fresh air, keep the patient warm and provide resuscitation if        |
|                                       | necessary. If symptoms develop, obtain medical attention.                      |
| First-aid measures after skin contact | Remove contaminated clothing. Rinse the affected skin or mucous                |
|                                       | membrane thoroughly under running water. (If possible) use soap.               |
| First-aid measures after eye contact  | After contact with the eyes rinse thoroughly with plenty of water for at least |
|                                       | 15 minutes with the eyelid wide open.  |
| First-aid measures after ingestion    | Do NOT induce vomiting. Never give anything by mouth to an unconscious         |
|                                       | person. Rinse mouth and drink plenty of water.                                 |

### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling section 2.2 and/or in section 11 Not expected to present a significant hazard under anticipated conditions of normal use.

May cause slight irritation to eyes.

### 4.3 Indication of any immediate medical attention and special treatment needed

No additional recommendations.

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Fire extinguishers appropriate to the fire classification, and, if applicable, a fire blanket must be available in a prominent location in the work area.

| Suitable extinguishing media   | All extinguishers like FOAM, WATER SPRAY, DRY POWDER, CARBON |
|--------------------------------|--|
|                                | DIOXIDE can be used.   |
| Unsuitable extinguishing media | None known.  |

### 5.2 Special hazards arising from the substance or mixture

| Fire Hazard                         | Not flammable.   |
|-------------------------------------|--|
| Hazardous decomposition products in | Carbon oxides, Nitrogen oxides, Hydrogen chloride gas, Potassium |
| case of fire                        | oxides, Sulphur oxides.  |

### 5.3 Advice for firefighters

| Firefighting instructions      | Product package burns like paper or plastic.                                   |
|--------------------------------|--|
|                                | Spray any vapours released with water.   |
|                                | Retain fire water where possible.  |
| Protection during firefighting | Protective breathing apparatus, independent of the ambient air (isolated       |
|                                | equipment), and sealed protective clothing is necessary in the event of large- |
|                                | scale formation of toxic substances.   |

### 5.4 Additional Information

None.

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | Evacuate unnecessary personnel.  |
|-----------------------------|--|
|                             | Avoid breathing vapours, mist or gas.                                      |
|                             | Avoid contact with skin, eyes and clothing.                                |
|                             | Regular staff training is necessary, indicating hazards and precautions on |
|                             | the basis of operating instructions.                                       |
|                             | Restrictions on activity must be observed.                                 |
| For emergency responders    | Wear suitable protective equipment as defined in section 8.2               |
|                             | Prevent further leakage or spillage if safe to do so.                      |
|                             | Avoid release of materials into the environment.                           |

### 6.2 Environmental precautions

Notify authorities if large amounts of the product enters sewers or public waters.

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### 6.3 Methods and material for containment and cleaning up

| Small Scale release | Make use of general chemical spill kit or other absorbent material.          |
|---------------------|--|
|                     | Clean any contaminated equipment and floors with plenty of water.            |
|                     | Collect small amounts of leaked liquid and flush with copious amounts of     |
|                     | water into drains.   |
| Large Scale release | Bind any escaping liquid with inert absorbent material (sand, vermiculite or |
|                     | similar).  |
|                     | Block/ prevent liquid entering any open drain.                               |
|                     | Collect contaminated materials and dispose in accordance to local            |
|                     | regulations for the disposal of hazardous chemicals.                         |

### 6.4 Reference to other sections

SECTION 5.4: Additional fire precautions.

SECTION 8: Exposure controls/personal protection.

SECTION 13: Disposal considerations.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Precautions for safe handling | Handling in accordance with the instructions supplied with the product. |
|-------------------------------|---|
|                               | Provide adequate ventilation.   |
|                               | Avoid breathing vapours, mist or gas.                                   |
|                               | Avoid contact with skin, eyes and clothing.                             |
| Hygiene measures              | Handle in accordance with good industrial hygiene and safety practice.  |
|                               | Take off contaminated clothing and wash before reuse.                   |
|                               | Wash hands and other exposed areas with mild soap and water before      |
|                               | eating, drinking or smoking and when leaving work.                      |

### 7.2 Conditions for safe storage, including any incompatibilities

| Storage conditions     | Keep only in the original container.                                       |
|------------------------|--|
|                        | Store in a cool well ventilated place out of direct sunlight.              |
|                        | Keep container closed when not in use.                                     |
|                        | Hygroscopic.   |
| Incompatible materials | Store separately from: Strong oxidizing agents, Copper, Iron, Zinc, Strong |
|                        | acids, Acid chlorides, Phosphorus halides, Strong reducing agents.         |

### 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830
Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

| 1-Step qPCR Buffer 4x |                  |  |
|-----------------------|------------------|--|
| United Kingdom        | WEL TWA (mg/m³)  | N/A                                      |
| United Kingdom        | WEL TWA (ppm)    | N/A                                      |
| United Kingdom        | WEL STEL (mg/m³) | N/A                                      |
| United Kingdom        | WEL STEL (ppm)   | N/A                                      |
| United Kingdom        | Remark (WEL)     | Contains no substances with occupational |
|                       |                  | exposure limit values.                   |

### 8.2 Exposure controls

| chemicals and washing facilities available.  Avoid all unnecessary exposure. Handle in accordance with good industrial hygiene and safety practice.  Respiratory protection Respiratory protection not required. For nuisance exposures or if risk assessment requires, use type OV/AG (US) or type ABEK (EU EN 14387) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).  Eye protection Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN166 (EU) with integrated side shields or wrap-around protection.  Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Wear protective gloves that satisfy the specifications of EU Directive 89/686/EEC and the standard EN374 derived from it. Exact breakthrough times to be found through the manufacturer of the protective gloves and must be observed. Gloves should be removed and replaced if there are any signs of degradation or breakthrough.  If used in solution, or mixed with other substances, and under conditions | Appropriate engineering controls: | Good ventilation or extraction system in the room, floor resistant to         |
|--|-----------------------------------|---|

# 1-Step qPCR Buffer 4x Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

These recommendations are advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.

### **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

| 1-Step qPCR Buffer 4x                       |                        |
|---|------------------------|
| Physical state:                             | Liquid                 |
| Colour:                                     | Colourless             |
| Molecular Mass:                             | No data available      |
| Odour:                                      | Odourless              |
| Odour threshold:                            | No data available      |
| pH:   | No data available      |
| Relative evaporation rate (butylacetate=1): | No data available      |
| Melting point:                              | No data available      |
| Freezing point:                             | No data available      |
| Boiling point:                              | No data available      |
| Flash point:                                | No data available      |
| Auto-ignition temperature:                  | No data available      |
| Decomposition temperature:                  | No data available      |
| Flammability (solid, gas):                  | Not applicable         |
| Vapour pressure:                            | No data available      |
| Relative vapour density at 20 °C:           | No data available      |
| Relative density:                           | ~1.0 g/cm³ (Water = 1) |
| Solubility:                                 | No data available      |
| Log Pow:                                    | No data available      |
| Viscosity, kinematic:                       | No data available      |
| Viscosity, dynamic:                         | No data available      |
| Oxidising properties:                       | No data available      |
| Explosive properties:                       | No data available      |
| Explosive limits:                           | No data available      |

### 9.2 Other information

Data for the other parameters of the mixtures are not available, because no registration and no chemical safety report is required.

Relevant Properties of Substance Group: None

### SECTION 10: Stability and reactivity

### 10.1 Reactivity

Stable under normal conditions.

### 10.2 Chemical stability

Stable under recommended conditions.

### 10.3 Possibility of hazardous reactions

None known.

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### 10.4 Conditions to avoid

Extremely high or low temperatures.

### 10.5 Incompatible materials

Strong oxidizing agents, Copper, Iron, Zinc, Strong acids, Acid chlorides, Phosphorus halides, Strong reducing agents.

### 10.6 Hazardous decomposition products

Hazardous decomposition products formed under fire conditions – Carbon oxides, Nitrogen oxides, Hydrogen chloride gas, Potassium oxides, Sulphur oxides.

In the event of fire: see section 5

### **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

Quantitative data on the toxicity of this product is not available.

| 1-Step qPCR Buffer 4x                            |   |
|--|---|
| Acute toxicity                                   | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Skin corrosion/irritation                        | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Serious eye damage/irritation                    | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Respiratory or skin sensitisation                | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Germ cell mutagenicity                           | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Carcinogenicity                                  | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Reproductive toxicity                            | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Specific target organ toxicity (single exposure) | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Aspiration hazard                                | Not classified.   |
| Additional information                           | Based on available data, the classification criteria are not met. |
| Potential adverse human health effects and       | Not expected to present a significant hazard under                |
| symptoms:  | anticipated conditions of normal use.                             |

### **SECTION 12: Ecological information**

### 12.1 Toxicity

| 1-Step qPCR Buffer 4x |                |
|-----------------------|----------------|
| Ecology - Water       | Not Classified |

Environmental hazards must not be labelled with P phrases until 125 mL or 125 g (EU 1272/2008 Annex I - 1.5.2).

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### 12.2 Persistence and degradability

| 1-Step qPCR Buffer 4x |                   |
|-----------------------|-------------------|
| Biodegradation        | No data available |

### 12.3 Bioaccumulative potential

| 1-Step qPCR Buffer 4x               |                                     |
|-------------------------------------|-------------------------------------|
| Bioconcentration factor (BCF REACH) | No additional information available |
| Log Pow                             | No data available.                  |

### 12.4 Mobility in soil

| 1-Step qPCR Buffer 4x |                    |
|-----------------------|--------------------|
| Ecology - Soil        | No data available. |

### 12.5 Results of PBT and vPvB assessment

| 1-Step qP0  | CR Buffer 4x   |
|-------------|--|
| This substa | ance/mixture does not meet the PBT criteria of REACH regulation, annex XIII  |
| This substa | ance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |

### 12.6 Other adverse effects

| 1-Step qPCR Buffer 4x                |
|--------------------------------------|
| No additional information available. |

### **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

| Product  |
|--|
| Offer surplus and non-recyclable solutions to a licensed disposal company. |
|  |
| Contaminated packaging   |
| Dispose of as unused product.  |
|  |

### **SECTION 14: Transport information**

In accordance with ADR / RID / IMDG / IATA / ADN

### 14.1 UN number

| UN-No. (ADR)  | Not regulated |
|---------------|---------------|
| UN-No. (IMDG) | Not regulated |
| UN-No. (IATA) | Not regulated |
| UN-No. (ADN)  | Not regulated |
| UN-No. (RID)  | Not regulated |

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### 14.2 UN proper shipping name

| Proper Shipping Name        | Not regulated |
|-----------------------------|---------------|
| Proper Shipping Name (IMDG) | Not regulated |
| Proper Shipping Name (IATA) | Not regulated |
| Proper Shipping Name (ADN)  | Not regulated |
| Proper Shipping Name (RID)  | Not regulated |

### 14.3 Transport hazard class(es)

| Transport hazard class(es) (ADR)  | Not regulated |
|-----------------------------------|---------------|
| Transport hazard class(es) (IMDG) | Not regulated |
| Transport hazard class(es) (IATA) | Not regulated |
| Transport hazard class(es) (ADN)  | Not regulated |
| Transport hazard class(es) (RID)  | Not regulated |

### 14.4 Packing group

| Packing group        | Not regulated |
|----------------------|---------------|
| Packing group (IMDG) | Not regulated |
| Packing group (IATA) | Not regulated |
| Packing group (ADN)  | Not regulated |
| Packing group (RID)  | Not regulated |

#### 14.5 Environmental hazards

| Dangerous for the environment | No                                     |
|-------------------------------|--|
| Marine pollutant              | No                                     |
| Other information             | No supplementary information available |

### 14.6 Special precautions for user

| Overland transport        | Not regulated |
|---------------------------|---------------|
| Transport by sea          | Not regulated |
| Air transport             | Not regulated |
| Inland waterway transport | Not regulated |
| Rail transport            | Not regulated |

### 14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable

### SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Contains no REACH substances with Annex XVII restrictions

Contains no substance on the REACH candidate list  $\geq$  0,1 % / SCL

Contains no REACH Annex XIV substances

### 15.2 Chemical safety assessment

No chemical safety assessment has been carried out

### **SECTION 16: Other Information**

### 16.1 Full text of H, EUH and P statements

| None | None. |
|------|-------|
|------|-------|

### **Safety Data Sheet**

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of original issue: 07/09/2018 Current revision: 29/06/2020 Version 1.1 Supersedes: 07/09/2018 Version 1.0

### 16.2 Training Advice

Regular safety training

### 16.3 Abbreviations and acronyms

| ADR    | Accord européen relatif au transport international des marchandises Dangereuses par Route      |
|--------|--|
| ATE    | Acute Toxicity Estimate  |
| CAS    | Chemical Abstracts Service number  |
| CLP    | Classification, Labeling and Packaging   |
| DNEL   | Derived No effect Limit  |
| EC     | European Community   |
| EC50   | Effective Concentration 50%  |
| EN     | European Norm  |
| IARC   | International Agency for Research on Cancer  |
| IATA   | International Air Transport Association  |
| IBC    | Intermediate Bulk Container  |
| IMDG   | International Maritime Dangerous Goods Code  |
| IMO    | International Maritime Organisation  |
| LC50   | Lethal Concentration 50%   |
| LD50   | Lethal Dose 50%  |
| MAC    | Maximal Allowed Concentration  |
| O/W    | Oil-in-Water (chemistry)   |
| OECD   | Organisation for Economic Co-operation and Development   |
| PBT    | Persistent, bioaccumulative and toxic  |
| PMcc   | Pensky-Martens Closed Cup test   |
| PNEC   | Predicted no effect concentration  |
| REACH  | Registration, Evaluation and Authorisation of CHemicals  |
| RID    | Règlement concernant le transport international ferroviaire de marchandises                    |
| STEL   | Short Term Exposure Limit  |
| TWA    | Time Weighted Average  |
| UNXXXX | Number assigned by the United Nations Committee of Experts on the Transport of Dangerous Goods |
| vPvB   | Very persistent and very bioaccumulative   |

### 16.4 Recommended Restriction on Use

Only for professional user working under controlled conditions.

Consider employee restrictions for young people (e.g. 94/33/EC)

Consider employee restrictions for pregnant women and nursing women (e.g. 92/85/EEC)

### 16.5 Further Information

**Bioline Reagents Ltd,** part of Meridian Bioscience, provides the information contained herein in good faith being up-to-date of own realizations at revision time. This document is intended only as a guide to the appropriate precautionary handling of the material by a properly trained person using this product.
